1. **What is the purpose of the study?**
 The purpose of the study is to determine the effect of the use of the Internet on the learning of English as a second language.

2. **What are the research questions?**
 The research questions are: (a) What is the effect of the use of the Internet on the learning of English as a second language? (b) What are the factors that influence the use of the Internet in the learning of English as a second language?

3. **What is the significance of the study?**
 The significance of the study is that it will provide information on the effect of the use of the Internet on the learning of English as a second language, which will be useful to teachers and students.

4. **What are the limitations of the study?**
 The limitations of the study are that it is a cross-sectional study and it is limited to the use of the Internet in the learning of English as a second language.

5. **What are the conclusions of the study?**
 The conclusions of the study are that the use of the Internet has a positive effect on the learning of English as a second language and that there are several factors that influence the use of the Internet in the learning of English as a second language.
