

[illegible]

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

Small data is hard to come by, but the  
1990s have seen a boom in the  
availability of data on the  
Internet. The World Wide Web  
is a treasure trove of information,  
and the Internet is a vast  
network of computers.

| Account                     | Debit | Credit | Balance |
|-----------------------------|-------|--------|---------|
| 1. Cash                     |       |        |         |
| 2. Accounts Receivable      |       |        |         |
| 3. Inventory                |       |        |         |
| 4. Prepaid Insurance        |       |        |         |
| 5. Equipment                |       |        |         |
| 6. Accumulated Depreciation |       |        |         |
| 7. Accounts Payable         |       |        |         |
| 8. Notes Payable            |       |        |         |
| 9. Long-Term Debt           |       |        |         |
| 10. Equity                  |       |        |         |
