AAI/NOC/2013/370/57

To,
M/s Arena Superstructures Pvt Ltd,
D-42, Sector-55,
Noida, Gautam Budh Nagar,
Uttar Pradesh-201301

Subject: No Objection Certificate for Height Clearance

This NOC is issued by Airports Authority of India (AAI) in pursuance of responsibility conferred by and as per the provisions of Govt. of India (Ministry of Civil Aviation) order SO84 (E) dated 14th Jan. 2010 for Safe and Regular Aircraft Operations.

1. References:

NOCID	PALM/NORTH/8/042714/37012
Applicant Letter	Dated 25.04.2014

2. NOC Details for Height Clearance:

Applicant Name	M/s Arena Superstructures Pvt Ltd.
Type of Structure	BUILDING
Site Address	Plot No SC-01/A2, Sector-79, Noida, Gautambudh Nagar, U.P.
Site Co-ordinates	28 33 46 N - 77 23 44 E
Site Elevation AMSL (in Mtrs)	199.00 Mtrs (One Hundred Ninety Nine only)
Permissible height above Ground Level (in Mtrs)	120.90 Mtrs (One Hundred Twenty Decimal Nine Zero only)
Permissible Top Elevation AMSL in Mtrs	319.90 Mtrs (Three Hundred Nineteen Decimal Nine Zero only)

3. This NOC is subject to the terms and conditions as given below:

- The site-elevation and site coordinates provided by the applicant are taken for calculation of the permissible top elevation for the proposed structure. If, however, at any stage it is established that the actual data is different from the one, provided by the applicant, this NOC will be invalid.
- The issue of the NOC is further subject to the provisions of Section 9-A of the Indian Aircraft Act, 1934 and those of any notifications issued there under from time to time including the Aircraft (Demolition of Obstruction caused by buildings and trees etc.) Rules, 1994.
- No radio/TV Antenna, lighting arresters, staircase, Muntree, Overhead water tank and attachments of fixtures of any kind shall project above the Permissible Top Elevation 319.90 Mtrs, indicated in para 2.

"दिल्ली यंत्रो नन स्वयंभू ई।"

- (D) The use of oil fired or electric fired furnace is mandatory, within 8 KM of the Aerodrome Reference Point.
- (E) The certificate is valid upto 21.08.2018. If the building/structure/ Chimney is not constructed & completed within the period, the applicant will be required to obtain a fresh 'NOC' from the Designated Officer of Airports Authority of India. The date of completion of Building/Structure/Chimney should be intimated to this office of AAI. Request for revalidation of NOC will not be entertained after the expiry of its validity period.
- (F) No light or a combination of lights which by reason of its intensity, configuration or colour may cause confusion with the aeronautical ground lights of the airport shall be installed at the site at any time, during or after the construction of the building.
- (G) The applicant will not complain/claim compensation against aircraft noise, vibrations, damages etc. caused by aircraft operations at or in the vicinity of the airport.
- (H) Day markings & night lighting with secondary power supply shall be provided as per the guidelines specified in chapter 6 and appendix 6 of Civil Aviation Requirement Series 'B' Part 1 Section 4, available on DGCA website: www.dgca.nic.in
- (I) The applicant is responsible to obtain all other statutory clearances from the concerned authorities including the approval of building plans as this NOC for height is for the purpose of 'to ensure the safe and regular aircraft operations' and shall not be used as document for any other purpose/claim whatsoever, including ownership of land etc.
- (J) This NOC has been issued w.r.t. the Civil Airports as notified in SO 84(E). Applicant needs to seek separate NOC from Defence, if the site lies within jurisdiction of Defence Airport.

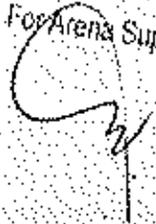

This certificate is issued for "HEIGHT CLEARANCE ONLY" with the approval of Competent Authority for Permissible Top Elevation 319.90 Mtrs.

Request for supply of STP Water for construction purpose

Dear Sir,

Lotus Arena
Plot No SC-01/A2, Sector-79,
Noida, Uttar Pradesh, India
201301

Subject: Request letter for supply of STP Water for construction purpose

Respected Sir,

This is with respect to notification issued regarding the withdrawal of the ground water for the construction purpose.

We are requesting you to kindly consider our application for supplying us the STP water for our site at the address as under.

Name & Address of Organization
Arena Superstructures Pvt Ltd
D-102, Kirti Nohel-Enclave,
New Delhi-110037

Our Daily requirement of STP water is **20 kilo litres (20,000 litres) per day**
Name & Address of the Site
Lotus Arena
Plot No SC-01/A2, Sector-79, Noida Uttar Pradesh

Our preferable STP location is: STP Sector-50, Noida

We are submitting you the charges for the period for three months April - June, 2017 herewith and the further charges would be paid as per the further requirement.

Looking forward for your kind approval

With Thanks & Regards

1.17	Site Electricity Demand	
1.18	DG set Backup	9520 (0.15 x 1250 x 2 No. x 1016)
1.19	Height of D.G. tank - 115.25 Mtr. (6m. Above utility tower)	

3. Water requirement of the project is as follows:

S. No.	Water Uses	Occupancy/ Capacity/Area	Rate	Total Water Demand (liters)
A. Domestic Water Requirement				
100	Residential	1000	@10 lpcd	1000
100	Non-Residential (Employees/Workers)	100	@15 lpcd	1500
100	Visitors	100	@15 lpcd	1500
Total Domestic Water Requirement				3000
B.	DG cooling	9520 KW	@ 0.9 lpcd/KVA	8568
C.	Green Area	22643.33 sq. m	@ 1 lpcd/ha	22643
D.	Swimming pool (Makeup Water)	1	1.5	1.5
Total Water Requirement				31212

4. The project proposals are covered under category 'B' of EIA Notification, 2006.

Based on the recommendations of the State Level Expert Appraisal Committee Meeting held on 15/11/2014 & the State Level Environment Impact Assessment Authority in its Meeting held on 21/11/2014 has decided to grant the Environmental Clearance to the project subject the following specific and general conditions:

- a. **Specific Conditions:**
1. Adequate green cover not less than 33% of the plot area should be provided within the premises.
 2. For the treatment for total sewage, a full-fledged STP is to be provided with 20% more capacity than waste water generated during operation phase. 100% waste water is to be

For Arena Superstructures Private Limited
 Director/Authorised Signatory

1. The applicant is required to submit a project budget showing the following items:
 - a. Estimated cost of the project (including all items).
 - b. Estimated project cost for the project (including all items).
 - c. Estimated cost for the project (including all items).
2. A water body on the water body is to be preserved in its natural state.
3. The project should not be a source of any pollution to the water body.
4. RWI (regardless of whether design and construction has been completed) should be 23 months from the start of the Environmental Clearance.
5. Approved site plan from authority to be submitted within 15 months from receipt of the Environmental Clearance.
6. An Environmental Corporate Responsibility (ECR) plan along with budgetary provision to the minimum Rs. 100 crores as discussed shall be submitted and executed.
7. A detailed plan for Municipal Solid Waste handling and the disposal shall be provided in accordance with Municipal Solid Waste Management and Handling Rules, 1995, as amended.
8. Project falling within 10 Km. area of Wild Life Sanctuary is to obtain a clearance from National Board for Wild Life (NBWL) even if the eco-sensitive zone is not notified.
9. LED's should be used in all common areas and corridors. At least 50% solar lighting is to be provided in the open areas.
10. Parking guideline as per North Development Authority should be followed.
11. All entry/exit ponds should be well mouth shaped.
12. To discharge excess treated waste water into public drainage system permission from the competent authority to be taken prior to any discharge.
13. 100 % provision of Rain Water Harvesting is to be made. RWI shall be initially done only from the roof top. RWI from green and other open areas shall be done only after permission from CGWB.
14. Height of the stack should be provided as discussed based on ambient DG sets capacity and be 6m higher than the tallest building.
15. Post project monitoring for air, water (surface & ground), Stack noise of DG sets, STP to be carried out as CPCB Guidelines.
16. Gréche to be provided during the construction/operation phase.
17. Provision of separate toilet for senior citizen with proper amenities.
18. Parking for disabled persons should be explored.
19. Protection shall be provided on the windows of the high rise flats for security of residents.
20. Criteria/ norms provided by competent Authority regarding the seismic zone be followed for construction work.
21. Dust plumbing should be adopted.
22. Unless and until all the environmental issues are sorted out the occupancy will be restricted and would be only allowed after achieving the Permission from the competent authority.
23. The project proponent shall ensure that the project site does not attract/induce any buffer zone of no activity identified/declared under law.
24. Ground water should not be extracted for the purpose of construction or otherwise. In case of default the Environmental Clearance will deem to be cancelled.
25. Sprinklers to be used for curing and quenching and ready mix concrete may be used for construction.

11. Proposed layout shall be submitted to the competent authority for approval and the consent of the
12. Proposed layout shall be approved by the competent authority before the commencement of the project.
13. Proposed layout shall be approved by the competent authority before the commencement of the project.
14. Pollution control measures shall be provided for the project area and the surrounding area to prevent any pollution and to protect the environment.
15. During the construction period, the project area shall be kept free from any pollution and shall be kept clean and tidy.
16. Pollution control measures shall be provided for the project area and the surrounding area to prevent any pollution and to protect the environment.
17. During the construction period, the project area shall be kept free from any pollution and shall be kept clean and tidy.
18. Pollution control measures shall be provided for the project area and the surrounding area to prevent any pollution and to protect the environment.
19. During the construction period, the project area shall be kept free from any pollution and shall be kept clean and tidy.
20. Pollution control measures shall be provided for the project area and the surrounding area to prevent any pollution and to protect the environment.

10. **General Conditions:**

1. It shall be ensured that all standards related to ambient environmental quality and the environmental standards as prescribed by the MoE are strictly complied with.
2. It shall be ensured that obtain the no objection certificate from the U.P pollution control board before start of construction.
3. It shall be ensured that no construction work or preparation of land by the project management except for securing the land is started on the project or the activity without the prior environmental clearance.
4. The proposed land use shall be in accordance to the prescribed land use. A land use certificate issued by the competent Authority shall be obtained in this regards.
5. All trees felling in the project area shall be as permitted by the forest department under the prescribed rules. Suitable clearance in this regard shall be obtained from the competent Authority.
6. Impact of drainage pattern on environment should be provided.
7. Surface hydrology and water regime of the project area within 10 km should be provided.
8. A suitable plan for providing shelter, light and fuel, water and waste disposal for construction labour during the construction phase shall be provided along with the number of proposed workers.
9. Measures shall be undertaken to recycle and reuse treated effluents for horticulture and plantation. A suitable plan for waste water recycling shall be submitted.
10. Obtain proper permission from competent authorities regarding enhanced traffic during and due to construction and operation of project.
11. Obtain necessary clearances from the competent Authority on the obstruction and use of ground water during the construction and operation phases.
12. Hazardous/inflammable/explosive materials likely to be stored during the construction and operation phases shall be as per standard procedure as prescribed under law. Necessary clearances in this regards shall be obtained.

For Arena Superstructures Private Limited
 Director/Authorised Signatory

12. Solid wastes shall be suitably segregated and disposed. A separate and enclosed mechanical waste collection water should be provided. Necessary plans should be submitted as follows:
 - a. Suitable treatment level, type, system or percentage of treated effluent should be notified. Complete properties of the effluent should be submitted.
 - b. The emissions and effluents on those parameters, instruments and frequency during construction and operation phases should be according to the prescribed standards. Necessary plans in this regard shall be submitted.
 - c. Water recycling and other data control measures should be undertaken to take care of cost generated during the construction and operation phases. Necessary plans in this regard shall be submitted.
 - d. Suitable noise abatement measures shall be adopted during the construction and operation phases in order to ensure that the noise emissions do not violate the prescribed ambient noise standards. Necessary plans in this regard shall be submitted.
13. Effluents shall pass through treatment before venting out and the effluent should be utilized for preparation of green belt.
14. Beverage effluents shall be kept separate from rain water collection and storage system and separately disposed. Other effluents should not be allowed to mix with domestic effluents.
15. Hazardous/Solid waste generated during construction and operation phases should be disposed off as prescribed under law. Necessary clearance in this regard shall be obtained.
16. Atomic technologies for solid waste disposal (like vermiculture etc.) should be used in consultation with expert organizations.
17. No wetland should be infringed during construction and operation phases. Any wetland covering in the project area should be suitably rejuvenated and conserved.
18. Pavements shall be so constructed as to allow infiltration of surface run-off of rain water. Fully impermeable pavements shall not be constructed. Construction of pavements around trees shall be as per scientifically accepted principles in order to provide suitable watering, aeration and nutrition to the tree.
19. The Green building Concept suggested by Indian Green Building Council, which is a part of CII-Gadaj GBC, shall be studied and followed as far as possible.
20. Compliance with the safety procedures, norms and guidelines as outlined in National Building Code 2005 shall be compulsorily ensured.
21. Ensure usage of dual flush systems for flush cisterns and explore options to use sensor based fixtures, waterless urinals and other water saving techniques.
22. Explore options for use of dual pipe plumbing for use of water with different qualities such as municipal supply, recycled water, ground water etc.
23. Ensure use of measures for reducing water demand for landscaping and using xeriscaping, efficient irrigation equipments & controlled watering systems.
24. Make suitable provisions for using solar energy as alternative source of energy. Solar energy application should be incorporated for illumination of common areas, lighting for gardens and street lighting in addition to provision for solar water heating. Present a detailed report showing how much percentage of backup power for institution can be provided through solar energy so that use and polluting effects of DG sets can be minimized.
25. Make separate provision for segregation, collection, transport and disposal of e-waste.

For Arene Superstructures Private Limited

Director/Chief Secretary

40. Environmental water permit to be obtained from the EPA and to be used for the construction of the building.
41. Educate citizens and other stakeholders by putting up 1000 posters in different places to create environmental awareness.
42. Public consultation with the concerned agencies from the onset of the proposed project should be avoided. Public display of fully approved and approved plans should be avoided.
43. Regular and periodic check on the progress of plan.
44. A report on the energy conservation measures including the energy conservation measure analysis by Bureau of Energy Efficiency should be prepared incorporating details about building materials and technology, R & D, Closures etc.
45. Fly ash should be used in building material in the construction as per the provision of fly ash notification of September, 1999 and amended on 06 August, 2003 (The latest condition is applicable only if the project lies within the limit of Thermal Power Station).
46. The DPC wire to be used during construction phase should use low sulphur diesel type and should conform to B.P. rules prescribed for an and noise emission standards.
47. Alternate technologies to Chlorination (for disinfection of waste water) including methods like Ultra Violet radiation, biosand, etc. shall be examined and a report submitted with justification for selected technology.
48. The green belt design along the periphery of the plot shall achieve attenuation factor conforming to the day and night noise standards prescribed for residential land use. The open spaces inside the plot should be suitably landscaped and covered with vegetation of indigenous variety.
49. The construction of the building and the consequent increased traffic load should be such that the micro climate of the area is not adversely affected.
50. The building should be designed so as to take sufficient safeguards regarding seismic zone sensitivity.
51. High rise buildings should obtain clearance from aviation department of concerned authority.
52. Suitable measures shall be taken to restrain the development of small commercial activities or shops in the vicinity of the complex. All commercial activities should be restricted to special areas earmarked for the purpose.
53. It is suggested that literacy program for weaker sections of society/women/adults (including domestic help) and under privileged children could be provided in a formal way.
54. The use of Compact Fluorescent lamps should be encouraged. A management plan for the safe disposal of used/damaged CFLs should be submitted.
55. It shall be ensured that all street and park lighting is solar powered. 30% of the same may be provided with dual (solar/electrical) alternatives.
56. Solar water heater shall be installed to the maximum possible capacity. Plans may be drawn up accordingly and submitted with justification.
57. Treated effluents shall be maximally reused to aim for zero discharge. Where ever not possible, a detailed management plan for disposal should be provided with quantities and quality of waste water.
58. The treated effluents should normally not be discharged into public sewers with terminal treatment facilities as they adversely affect the hydraulic capacity of STP. If unable, necessary permission from authorities should be taken.
59. Construction activities including movements of vehicles should be so managed so that no disturbance is caused to nearby residents.

For Arena Superstructures Private Limited

Page 8 of 8

14. The project will be subject to regular audits by the District Sanitation Officer (DSO) to monitor compliance with

51. All the necessary documents and records should be maintained and submitted promptly upon request to the concerned authority for the verification of compliance of the project with the environmental laws and regulations.
52. The project should be an eco-friendly one and the use of SFP, if a consent of the concerned authority is not obtained, is not allowed.
53. The location of the SFP should be such that it is not a health hazard. Landfills should not be used for disposal of sludge. Collection and disposal systems should be examined and suitable alternatives.
54. The Environmental Management plan should inter-include the break up costs on various locations and the management needs such as that the residents also participate in the implementation of the environmental management plan.
55. Detailed plans for safe disposal of SFP sludge shall be provided along with suitable disposal location, quantitative estimates and measures proposed.
56. Layout of the project on site shall be submitted along with geology plan from North, South, West and East, indicating contours and adjoining roads shall be provided.
57. Specific location along with dimensions with reference to SFP, Parking, Open area and Green belt etc. should be provided on the layout plan.
58. The DG sets shall be so installed so as to conform to prescribed stack heights and regulations and also to the noise standards as prescribed. Details should be submitted.
59. L-Waste Management should be done as per MoEF guidelines.
60. Electrical waste should be segregated and disposed suitably in order to impose Environmental Risk.
61. The use of suitably processed plastic waste in the construction of roads should be considered.
62. Displaced persons shall be suitably rehabilitated as per prescribed norms.
63. Dispensary for first aid shall be provided.
64. Safe disposal arrangement of used toiletries items in Hotels should be ensured. Toiletries items could be given complementary to guests, adopting suitable measures.
65. Diesel generating set stacks should be monitored for CO and HC.
66. Ground Water downstream of Rain Water Harvesting pit nearest to SFP should be monitored for bacterial contamination. Necessary Hand Pumps should be provided for sampling. The monitoring is to be done both in pre and post monsoon, seasons.
67. The green belt shall consist of 50% trees, 25% shrubs and 25% grass as per MoEF norms.
68. A Separate electric meter shall be provided to monitor consumption of energy for the operation of sewage/effluent treatment in tanks.
69. An energy audit should be annually carried out during the operational phase and submitted to the authority.
70. Project proponents shall endeavor to obtain ISO 14001 certification. All general and specific conditions mentioned under this environmental clearance should be included in the environmental manual to be prepared for the certification purposes and compliance.
71. Appropriate safety measures should be made for accidental fire.
72. Smoke meters should be installed as warning measures for accidental fires.
73. Project falling within 10 Km. area of Wild Life Sanctuary is to obtain a clearance from National Board Wild Life (NBWL) even if the eco-sensitive zone is not constituted.

This Environmental Clearance is subject to ownership of the site by the project proponents in confirmation with approved Master Plan for NOIDA. In case of violation, it would not be effective and would automatically be stand cancelled.

1. The proposed project is situated in the area of the State of Uttar Pradesh and is subject to the provisions of the Environmental Protection Act, 1986.

You are directed to ensure that the proposed project is not a part of any of the notified zones or regulated areas of the State of Uttar Pradesh. In case of violation, the Commission shall automatically direct to be cancelled. Any of the kind of any dispute or controversy in hand or at the proposed site, the project shall be deemed to be cancelled.

The project proposal will have to be approved by the project proponent incorporating the conditions specified in the Environmental Clearance within 15 months or less of the clearance. The SEIAA/Bidhli reserves the right to provide the environmental clearance if conditions stipulated are not implemented in the satisfaction of SEIAA/Bidhli. SEIAA may impose additional environmental conditions on the project existing under it. Necessary statutory clearances should be obtained and submitted before start of any construction activity.

These stipulations would be violation of any laws under the provisions of Water Conservation and Control of Pollution Act, 1986, the Air (Prevention and Control of Pollution) Act, 1986, the Environment Protection Act, 1986, the Public Liability Insurance Act, 1991 and EIA Notification, 1987 and also the provisions and rules and regulations.

This is to request you to take further necessary action in the matter as per provision of Gazette Notification No. S.O. 1530/01 dated 14.9.2006, as amended and send half yearly compliance reports in respect of the stipulated prior environmental clearance terms and conditions in hard and soft copies to the SEIAA, U.P. on 1st June and 1st December of each calendar year.

Sub : Implementation of the E.S.I. act, 1948 and Registration of Employees of the Factories and Establishments under Section 1(3)/1(5) of the ESI Act, as amended.

Dear Sir(s),

1. It is informed that under section 1(3) of the ESI Act, 1948 is applicable to all factories covered under the Act within the area where your factory is situated.
2. It is further informed that the appropriate Government has extended the provisions of the Act to other establishments under section 1(5) of the Act in this area.
3. Under Section 2-A of the Act such a factory/establishment is required to register itself under the Act and Chapter IV thereof casts a responsibility on the principal employer thereof to get his employees registered and pay contributions in respect of these employees covered under the Act.
4. On the basis of the particulars in respect of your factory/establishment submitted by you on the basis of the report of the inspection conducted by the Social Security Officer, who inspected your establishment on -NA-, your establishment falls within the purview of Section 1(5) of the Act with effect from 01/04/2017. In case, however, subsequent facts reveal that your establishment was coverable from a date prior to the date mentioned above, you shall make yourself liable to comply with the provisions of the Act from such earlier date.
5. It is requested to take immediate steps for registration of your employees by submitting declaration forms online, payment of contribution, maintenance of records etc. from the date of coverage of your factory/establishment under the act.
6. You are also requested to submit employer's registration form (Form III) on line, as required under the provisions of sec.2-A of the ESI Act, 1948 read with regulation 10-B of the ESI(General) Regulations, 1950(only in case your Code No. is allotted as a result of Survey by a Social Security Office of ESI Corporation).
7. For the sake of convenience your factory/establishment has been allotted code No **67000635350000999** which may kindly be used in all communications sent to this office and on all forms at the place indicated for the purpose. The Branch Office of the Corporation situated at **NOIDA-11, Branch Office, ESI Corporation, G-11B** Se has been instructed to render necessary assistance to you in connection with registration of your employees. In case you find any difficulty or for any other purpose which may be necessary in connection with the Scheme you are requested to contact the **Manager** of the above Branch Office who will render necessary help in the

Sub: Allotment of Code Number to establishment M/s ARENA SUPERSTRUCTURES PRIVATE LIMITED under Employees' Provident Fund and Miscellaneous Provisions Act, 1952-regarding.

Sir/Madam,

Based on the information submitted online by you, your establishment is registered with Employees' Provident Fund Organisation with the following code number :

Code Number : MRNOI1596544000

This code number is allotted based on the following declarations by you:

1. Name of Establishment : ARENA SUPERSTRUCTURES PRIVATE LIMITED
2. PAN of Establishment : AAKCA6771F
3. Date on which employment strength crossed 19 : 01/04/2017
4. Section under which covered : 0001(3)(b)
5. Primary Activity : BUILDING AND CONSTRUCTION INDUSTRY
6. Ownership Type : PRIVATE LIMITED COMPANIES
7. The address proof of the establishment is :

- Copy of bank passbook/statement
- Copy of power connection in the name of the establishment

Please note that this intimation letter is generated with the Owners' Details in Form 5A and the intimated letter will be valid only if the Form 5A is enclosed.

Important information:

1. By virtue of the sections 1(3)(a) and 1(3)(b) of the Act, it applies on an establishment on its own volition and you as an employer, are required to comply with the provisions of the Act accordingly. The obligations/duties/responsibilities cast upon you as an employer of this establishment and possibly, on account of non-compliance with the same, are explained on our website www.epfindia.gov.in. You are required to go through them carefully.

2. Remittance of dues under the provisions of the Act is to be made only through a Challan generated through the Unified portal. (The process for registration on the portal, preparation of the ECR txt file and related information is available on the website and the portal).

3. In case this letter is produced as a proof of the code number of the establishment, before any person including any inspector from EPFO, the Form 5A generated through the portal at the time of registration should be a part of this letter. The remittance details of the establishment will be available on the EPFO website through the link "Establishment Search" where from December 2016 onwards, all payments with the names of employees are available on the link in cases of remittances made after uploading the ECR.

4. Please quote the Code Number MRNO11596544000 for all the future correspondence with EPFO.

This is a system generated letter and needs no signature.
