KODAK PLATE

During the first half of the 19th century, the  
United States and Canada were the  
two major sources of timber for  
Europe. The timber industry in  
North America was heavily  
dependent on the use of steam  
power, which was used to drive  
saws and other machinery. The  
timber industry in North America  
was heavily dependent on the use of  
steam power, which was used to drive  
saws and other machinery.
