Your proposal submitted with reference to above has been examined as per rules and found suitable as per proposal drawing UP MBBL 2025

Date of Validity: **26 Sep 2030** or Expiry date of lease deed whichever is earlier.

**Restrictions Required:**

1. This permission is given based on the inputs on pages, documents and drawing provided by Applicant/ Architect. Applicant/ Architect confirms that the documents/ drawings submitted electronically or inputs by them are correct.
2. The permission accorded does not confer any ownership rights. The permission will be revoked at later stage, if it is found that the documents or information are false and fabricated.
3. Subject to obtaining of all required NOC's.

**STANDARD CONDITIONS**

1. This map is valid up to **26 Sep 2030**
2. Before commencement of construction information shall be given to the Authority and after completion of construction, Completion Certificate shall be obtained from the Authority before occupying of the building or part thereof as per provision of Building Bye-Laws 2008 (as amended 2011/2016).
3. Before starting of construction, a board 4 ft x 3 ft shall be put up at the site on which Name of approving Authority, permit number, approval date, validity date and name of architect are to be mentioned.
4. Responsibility of Structure safety and quality shall be of Applicant.
5. Government Orders in force time to time shall be complied.
6. If approving Authority issue any demand letter in future, the applicant has to deposit the same without any objection.
7. If any dispute at any point of ownership arises in future, the permission shall be forfeited automatically (without giving any show cause notice). The approval of map does not give land rights to the applicant.
8. If any information is concealed or given wrong by the applicant, the map shall be cancelable.
9. Regarding construction, the standard/conditions specified in the Building Bye-Laws shall be implemented.
10. The building will be used only for which it is sanctioned.
11. Indian Electricity Rules shall not be violated and the conditions mentioned on NOC(s) issued by the different departments shall also be followed.

**Next Application Process:**

- Apply for Work start intimation on work start for intimation to authority from UPOBPAS
- Apply for Plinth Completion after completion of Plinth from UPOBPAS
- Apply for Occupancy after completion of Building through UPOBPAS.

**NGT CONDITIONS**

- 1) Owner shall put tarpaulin on scaffolding around the area of construction and the building. No person including owner, owner can be permitted to store any construction material particularly sand on any part of the street, roads in any colony.
- 2) The construction material of any kind that is stored in the site will be fully covered in all respects so that it does not disperse in the air in any form.

3) All the construction material and debris shall be carried in the trucks or other vehicles which are fully

- 3) All the construction material and debris shall be carried in the trucks or other vehicles which are fully covered and protected so as to ensure that the construction debris or the construction material does not get dispersed into the air or atmosphere, in any form whatsoever.
- 4) The dust emissions from the construction site should be completely controlled and all precautions taken in that behalf.
- 5) The vehicles carrying construction material and construction debris of any kind should be cleared before it is permitted to ply on the road after unloading of such material.
- 6) Every worker working on the construction site and involved in loading, unloading and carriage of construction material and construction debris shall be provided with mask to prevent inhalation of dust particles.
- 7) Owner shall be under obligation to provide all medical help, investigation and treatment to the workers involved in the construction of building and carry of construction material and debris relating to dust emission.
- 8) It shall be the responsibility of owner to transport construction material and debris waste to construction site, dumping site or any other place in accordance with rules and in terms of this order.
- 9) All owners/owners should take appropriate measures and strictly comply with by fixing sprinklers and creations of green air barriers on construction site. Compulsory use of wet-jet in grinding and stone cutting.
- 10) Wind breaking walls around construction site.
- 11) All owners shall ensure that C&D waste is transported and disposed to the C&D waste site only and due record in that behalf shall be maintained by the owners and transporters.
- 12) Use of covering sheets should be done for trucks to prevent dust dispersion from the trucks, implemented by district offices.
- 13) Proponent shall ensure that periodical auto maintenance report from the contractor to avoid vehicular pollution.
- 14) Proponent should manage transportation route for vehicles in a well-planned manner to avoid traffic havocs.
- 15) The entry and exit points design is very important as it should not disturb the existing traffic.
- 16) Inspection & Maintenance has definite utility on emission performance, Regular vehicle inspection to be done by the contractor to enhance the efficiency of work and to reduce the risk of unwarranted air pollution.
- 17) Fitness certification is a statutory requirement for commercial vehicles and public transport vehicles. Periodicity for certification is once in a Year.

- 18) Pollution Under Control (PUC) certificates are required to be obtained every three months for all categories of vehicles. In case of diesel vehicles, free acceleration smoke is measured.
- 19) Life of vehicle should be inspected to avoid further air pollution.
- 20) Overloading is another big challenge and the shall be dealt by the proponent as well as State Authorities by installing check booth at entry points.
- 21) Viable emission control technologies exist to reduce diesel exhaust emissions designed to control particulate matter (PM) should be installed/used such as Diesel oxidation catalysts (DOCs), Diesel particulate filters (DPFs), Exhaust gas recirculation (EGR), Selective catalytic reduction (SCR), Lean Nox catalysts (LNCs), Lean NOx traps (LNTs).
- 22) Green belt creation will also act as a mitigating factor.

### **SPECIAL CONDITIONS :**

Conditions: -

1. The map will be issued to the developer only after submitting the No Objection Certificate from various government departments like Municipal Corporation Jhansi, and pollution Department Jhansi.
2. As per the Development Fee Levy Rules, more than 20% of the saleable land has proposed to be mortgaged in favour of the Authority for internal development works, the total area of which is 5725.78 sq mt. which is shown in the map by hatching in red colour. A mortgage deed for this has to be executed.
3. As per the Building Construction and Development Bye-laws 2025 and Government Order issued in this regard, provision has been made for 10% E.W.S. & 10% L.I.G. of the total residential units to be constructed in schemes of area more than 3000.00 square meters proposed by government agencies and private developers. A provision has been made for 20% units in total. It is compulsory for developer to construct 21.80 units at the rate of 10% against 218 units i.e. 22 units E.W.S. and 22 units L.I.G. buildings.
4. 10% of saleable land under E.W.S. & L.I.G. category has been proposed to be mortgaged in favour of the Authority, whose total area is 2913.24 sq.m., which is shown in red colour hatched in the map. A mortgage deed for this has to be executed.
5. A developer agreement between the Authority and the developer in lieu of development works has to be executed.
6. The work of all internal facilities such as sewer disposal, water supply, drains and electricity supply etc. will have to be completed as per the standards of the concerned department and it will also be necessary to enter into an agreement to this effect with the authority.
7. It will be necessary to obtain a completion certificate before starting the scheme.
8. The developer will have to obtain no-objection from various government departments like Tehsil, Municipal Corporation, and other related departments and ensure that the conditions of that no-objection are followed in letter and spirit.
9. The applicant will have to get tree plantation done at the site as per rules.
10. The applicant will have to make provision for rain water harvesting.
11. The applicant must get registered as per RERA/Apartment Act.
12. Compliance of all affidavits given by the developer will have to be ensured, otherwise the map will be considered automatically cancelled.
13. The developer will have to leave the government land as it is and provide access road, otherwise the map will be automatically considered cancelled.
14. In case any record regarding land ownership is found to be false or hidden, the map will be considered automatically cancelled.
15. If any fee is demanded by the Authority from the developer as per the rules, then it will have to be accepted. As per above report the layout plan is being forwarded for approval with the above conditions and to deposit Rs. 4,75,39,562.00 (Rupees four crore seventy-five lakh thirty nine thousand five hundred sixty two only) in the Authority account
